

FINISH•MASTER™

# Mini Hoppa

*High-Energy Centrifugal Barrel Finisher*

## Features:

- Variable speed of 0-275 RPM
- Digital PLC touchscreen
- Maximum G-force rating of 30
- Safety interlock
- 304 S.S. frame construction
- 304 S.S. outer cladding
- Two or four polyurethane drums
- Small footprint
- Super quiet
- MADE IN THE USA

# FINISH•MASTER Mini Hoppa

**The Bel Air Mini Hoppa** represents the most advanced and economical centrifugal barrel system to date. The all stainless steel frame, components, and cladding ensure durability and resistance to corrosive chemicals. Small footprint, digital PLC touchscreen, and removable/interchangeable liners with posi-lock lids provide the ultimate in operator convenience and safety.

**The main turret** is constructed of 304 series stainless steel, includes two or four process drums, and is driven via toothed gears and belts. The drive system is further enhanced with an inverter-duty motor and drive providing for a speed range of 0-275 RPM with a G-Force rating of up to 30.

**Designed for ease of use**, our Mini Hoppa models come standard with a touchscreen interface and easy change liners. Operators can easily change parts and media with the posi-lock lid system. Parts up to 6" long can be processed easily.

**The machine cladding**, like the main turret, is also made of 304 series stainless steel. This allows for easy cleanup, and it eliminates the messy look of scratched and peeling paint. The panels are easily removable for quick access to machine components for ease of maintenance and repair.

## Standard Features

- Variable speed of 0-275 RPM
- Maximum G-force rating of 30
- Digital PLC touchscreen
- Multi-step programming with 24 available recipes
- Safety interlock
- 304 S.S. frame construction
- 304 S.S. outer cladding
- 2 or 4 polyurethane drums
- Small footprint
- Super quiet
- **MADE IN THE USA**

■ *Optional stainless steel workstations with accessories are available.*

Model	Total Capacity	Chamber Capacity	Chamber Size	Dimensions (W x D x H)	Electrical
FMCB-MH-2	.26 cu. ft. 1.92 gal/7.3 L	2 x .13 cu. ft. .96 gal/3.65 L	7" dia x 6.5" height	35" x 42" x 60" 89cm x 107cm x 152cm	230V / 3 Phase
