

FINISH•MASTER™

Automatic Hydronic Media Separator

Save hours of manual labor!

- *Separate up to 300 lbs. of Ceramic or Plastic Media in 3 minutes.*
- *Just turn-on, pour media & parts into hopper and in just 3 minutes, you're finished!*
- *Media & parts are sorted into their own bins for easy retrieval.*
- *Heavy-Duty Stainless Steel and 1/2" Polypro construction.*

■ **MS-AS-1**

Uses **water pressure** to separate media and parts, even of the same size, based on the difference in density between the parts and the media.

Water **recirculates** to conserve precious natural resources and **reduce operating costs**.

Easy to operate. Controls include variable pressure adjustment to fine tune the separation process.

Water flow can be adjusted via **frequency inverter**.

Model	Width (Inches)	Depth (Inches)	Height (Inches)	Weight (Pounds)	Voltage/Phase
MS-AS-1	52	24	71	330	220V, 1 Phase
