FMG Series Oblique Tumblers

FMG Series Oblique Tumblers

FINISH•MASTER

## FMG Series Oblique Tumblers

**Tabletop tumblers** allow you to perform steel or porcelain ball burnishing, polishing, or deburring at an extremely affordable cost, in a small compact package.

**Model FMG-0500** is a small, fixed tilt compact tumbler constructed of steel sheet base. It includes an on/off switch and removable polypro barrel. Great for tumbling, burnishing, and polishing, as well as small parts drying. Motor is 1/10 HP. **(DISCONTINUED)**

**Model FMG-1000** is a larger, belt-driven fixed tilt tumbler constructed of a heavy cast base and sheet steel guarding. The machine comes with an on/off switch and a removable polypro barrel with a convenient cover to contain water or dry media from escaping or splashing. Motor is 1/8 HP. **(DISCONTINUED)**

**Model FMG-10** is the most heavy-duty tabletop adjustable tilt tumbler on the market today. This 1/3 cubic foot capacity tumbler provides infinite tilt angle range, and is constructed of a heavy-duty steel plate weldment with a durable powder-coat finish for maximum durability. Driven by a heavy-duty DC motor with variable speed and reversing controls, this fused, drip-proof motor will perform for many years of trouble-free service. The machine comes standard with a polypro barrel, but optional steel & stainless steel lined and unlined barrels are available, as well as interchangeable barrels with slide-on splines. Motor is 1/3 HP.

Model	Length (Inches)	Width (Inches)	Height (Inches)	Capacity (CU FT)	Barrel RPM	Voltage
FMG-0500*	13	5.25	12	.18	33	110V, 1 Phase
FMG-1000*	15	6.5	15	.28	40	110V, 1 Phase
FMG-10	22	15	28	.33	33	110/220V, 1 Phase
