Bel-Air Finishing Supply's Tabletop Mini-Vibes provide all of the vibratory action required to provide excellent deburring and outstanding surface finishing in a compact, economical, and dependable package.

Bel Air is pleased to offer its Mini-Vibes vibratory finishing machines to small manufacturers. With over five decades of finishing experience, Bel Air offers you the expertise to utilize finishing systems for gold, silver, brass, and bronze, as well as shell, stone, and custom jewelry objects.

A heavy-duty batch bowl is available as an option with each unit. A flow-through water system with a capacity of 10 gallons is also available. Model FMV-0500 features a 10" diameter bowl, and model FMV-1000 features a 12" diameter bowl.

Bel Air also offers a full line of other finishing equipment, compounds, and all types and sizes of media and polishing materials.

Model	Height (in.)	Width (in.)	Volume (cu. ft.)	Weight Capacity (lbs.)	Weight (lbs.)	Voltage/Phase (50/60 Hz)
